

## SHAKE TEXTURED

### The rustic charm of traditional shake

---

Tilcor® is a new brand of Roofing systems, recently launched onto the world stage, presenting a superior design, manufacture and support for roofers, builders and developers around the globe.

The Tilcor Shake textured-finish tile features the wood-grain appearance of traditional shake. Its deep-ribbed profile is designed to enhance the shadow lines and create visual contrast.

With Tilcor Shake you can enjoy this look combined with all the benefits of stone-coated steel: exceptional weather and fire resistance, and long life. Tilcor Shake textured-finish tiles are available in a choice of colours from deep charcoals to earthy browns and greens, and the blended tones of weathered shakes. Tilcor Shake also comes in a satin finish.

Extensive research and development in the design process ensures every Tilcor product is manufactured to the highest quality with exceptional durability and strength. The tile profiles and roofing accessories are engineered to interlock and overlap to resist wind lifting and keep out the harsh elements. At less than 7kg/m<sup>2</sup>, a Tilcor roof is a 'Lightweight Roofing System', so considerable cost savings can be achieved during construction.

The perfect replacement for your old existing roof, a Tilcor roof lets you improve the look and value of your home in a matter of days. All of Tilcor's roofing products are fabricated from Zinalume® protected steel.

Tilcor's textured finish provides added protection by embedding natural stone granules in an acrylic base-coat. A final clear acrylic over-glaze is applied before being oven cured. This extremely durable UV-resistant coating enables Tilcor roofing products to withstand the harshest environments around the world.

Tilcor is ISO 9001 accredited. International tests reports, appraisals and field results confirm our products are 100% waterproof, earthquake safe, fire resistant and able to withstand hurricane-force winds of up to 190kph (120mph). A Tilcor roof will not only safeguard your investment but will also give you complete peace of mind because it's backed by a Tilcor warranty.

You will not find a more durable, versatile and attractive roofing product on the world market that will surpass Tilcor's quality and affordability.
